

MANIFESTO OF THE DESTINY OF WORLD PEACE

WORLD PEACE ONE PERSON AT A TIME, STARTING WITH ME

I, the undersigned, acknowledge my infinite spirit and commit to channeling its creative force into the manifestation of world peace. • I envision a humanity that transforms fear into Compassion through Self Love, Self Responsibility, and conscious choice. • I take full responsibility for the energy within my Domain, knowing peace begins within and radiates outward. • I dedicate my relationships—personal and collective—to reflect a love-based foundation rooted in Self Love. • I embrace every challenge, no matter how dark, as an opportunity to align more deeply with the truth of Compassion and inspire others to do the same. • I commit to this mission for the sake of all generations, and will persist until peace prevails on Earth.
